

Statistical Discovery™ From SAS.

## Getting started with JMP® is as easy as 1, 2, 3!

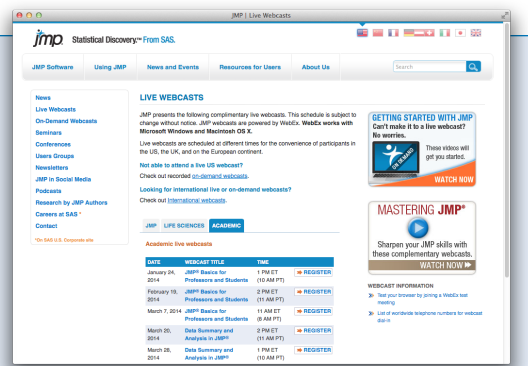

By installing JMP on your desktop, you're taking the first step toward making more statistical breakthroughs and communicating them more easily across your organization. Let us help you get up and running quickly.

### 1. Watch a free Getting Started webcast

Our weekly live webcast series is perfect for JMP newcomers, or you can watch a recorded version at your convenience.

After you've learned the basics, dive into our on-demand webcast library for programs that will show you how to perform a variety of statistical, data manipulation and visualization techniques in JMP.

[jmp.com/webcasts](http://jmp.com/webcasts)  
[jmp.com/ondemand](http://jmp.com/ondemand)

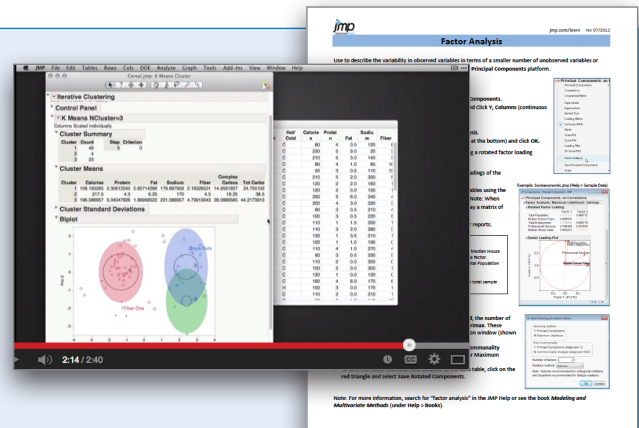

### 2. Explore the learning library and case study library

In our learning library, you'll find concise examples of how to perform a variety of analytics in JMP, in both printable one-page PDFs and video tutorial formats. Each guide provides a practical example and step-by-step instructions. Download the entire printable library and keep it on your computer for a quick reference. Or download one of our case studies to explore real data as you learn JMP.

[jmp.com/learn](http://jmp.com/learn) and [jmp.com/cases](http://jmp.com/cases)

Currently available only in English.

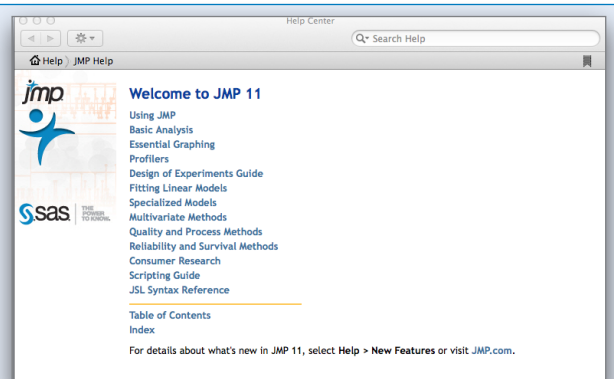

### 3. Discover help and resources in the software

In JMP you'll find a rich library of sample data with scripts to perform a variety of statistical analyses. Because the best way to learn JMP is to see it in action, this collection of data from a variety of industries will lead you by example. Other resources include help files, scripting and statistics indexes, tutorials and PDFs of manuals that list all the new features in the latest version of JMP.

See the Help menu in JMP.

## Additional Help Resources

Help Tool	 <p>Select any part of a display or report and click the question mark to open the Help tool, which includes context-sensitive help.</p>
Reference Books	<p>JMP includes documentation organized by subject, including:</p> <ul style="list-style-type: none"> <li>• Discovering JMP</li> <li>• Basic Analysis</li> <li>• Essential Graphing</li> <li>• Fitting Linear Models</li> <li>• Quality and Process</li> <li>• Scripting Guide</li> </ul>
Sample Data Directory	<p>Accessed from the Help menu under <b>Sample Data</b>, the Sample Data Directory contains more than 400 data files, grouped both by topical context and analysis technique. It also contains statistical calculators for computing sample sizes or performing tests with summary data.</p>

## Resources on the Web

<b>JMP Free Trial</b>	Download a free 30-day trial of JMP.	<a href="https://jmp.com/trial">jmp.com/trial</a>
<b>JMP Academic Page</b>	Resources for teachers, students and researchers.	<a href="https://jmp.com/academic">jmp.com/academic</a>
<b>Teaching Resources</b>	All available teaching resources, with links.	<a href="https://jmp.com/teach">jmp.com/teach</a>
<b>AP Statistics Page</b>	Resources for teaching AP Statistics.	<a href="https://jmp.com/apstats">jmp.com/apstats</a>
<b>JMP Learning Library</b>	One-page guides and tutorials for common JMP tasks.	<a href="https://jmp.com/learn">jmp.com/learn</a>
<b>Case Study Library</b>	Real-world examples for teaching statistics with JMP.	<a href="https://jmp.com/cases">jmp.com/cases</a>
<b>Academic Webcasts</b>	Free live and on-demand webcasts to help you master JMP.	<a href="https://jmp.com/webcasts">jmp.com/webcasts</a>
<b>Books</b>	Texts and other books to learn more about JMP.	<a href="https://jmp.com/books">jmp.com/books</a>
<b>Interactive Learning Modules</b>	Interactive tools for teaching and learning statistical concepts.	<a href="https://jmp.com/modules">jmp.com/modules</a>
<b>JMP User Community</b>	Access tips, files, scripts, podcasts and more.	<a href="https://jmp.com/community">jmp.com/community</a>
