Connect. Learn. Grow Your Skills With JMP® Training and Books.

For more than 25 years, JMP statistical discovery software has given users tools that let them see how things are connected, understand influencers, explore hunches and discover the unexpected. It empowers users to interact with and visualize their data on the desktop, knowing that the statistics at its core are sound.

You've invested in the most interactive, comprehensive and visual statistical discovery package. Now you can realize JMP software's fullest potential with SAS training and books to help make the best decisions for your business.

John Sall
Co-founder and Executive Vice President, SAS

Here to Help

Your JMP account representative, Deborah Upchurch, is committed to building long-term, successful partnerships with our users. To learn more or receive pricing, send an email to training@jmp.com or call **800-727-0025** and ask for Deborah.

Risk-Based Monitoring and Fraud Detection in Clinical Trials Using JMP and SAS presents a practical implementation of methodologies within JMP Clinical for the centralized monitoring of clinical trials.

Included in this book are analyses for RBM that incorporate and extend the recommendations of TransCelerate Biopharm, Inc. The book describes methods to detect potential patient or investigator misconduct, snapshot comparisons to easily identify new or modified data, and other novel visual and analytical techniques to enhance safety and quality reviews.

Global Leader

With more than 100 state-of-the-art facilities in 50 countries, SAS Education's expert instructors cultivate your JMP skills in courses offered when, where and how you need them.

What We Offer

Classroom Training

Our certified instructors deliver JMP knowledge and valuable tips by combining expertly designed lectures, software demonstrations and hands-on computer workshops for a collaborative learning experience. Classes are taught in SAS facilities and training centers across the globe.

Live Web Classroom Training

Instructor-led training is brought directly to your desktop through a virtual lab where you can interact with an instructor and fellow classmates. Participate in quizzes, ask questions and complete hands-on workshops, all in real time.

Business Knowledge Series

This series is a unique collaboration between SAS and a network of JMP industry experts who deliver the most current information on business practices, concepts, methodology and techniques to help you get the most value out of your JMP investment.

On-Site Training Services

Convenient, flexible and affordable, our on-site training courses are perfect for small or large groups. Choose to have us come to your location, or use one of our training facilities to host training tailored to fit your group's business needs. To accommodate groups in varying locations, we can set up a private Live Web classroom.

Mentoring Services

Navigate your business challenges with one of our mentoring experts. We come to you and show you how to apply JMP software and performance excellence methodology to your work environment.

SAS® E-Learning

SAS Education offers a variety of self-paced learning products that provide flexible, convenient training options.

Trainer's Kits

Organizations with instructors on staff who know JMP can choose the course they need from our current JMP curriculum, and we will create a trainer's kit containing course data, presentation materials, 30 copies of the course notes and one on-site course to train the trainer (instructor travel expenses not included). Use the materials as they are, or make modifications to suit your environment.
